## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-42 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Prior art of Gupta et al (US 6,199,079) discloses a method of automatically filling a vender's form with buyer's name, address and credit card number, etc, found in a database into corresponding fields, which otherwise would have to be filled by the buyer, and transmitting the filled form to the buyer (see column 8, lines 15-53; column 9, lines 16-22). The current invention claims scanning content already transmitted to a mobile device to find a form with at least one field to be filled by the user of the mobile device, filling the at least one field (for the user) and then transmitting the filled form to the mobile device for display. Gupta fails to teach first transmitting an empty form to a buyer, scanning content (including the empty form) already transmitted to the buyer to find the empty form, filling the empty form if found, and then transmitting the filled form to the buyer. In other words, Gupta fails to teach the first transmitting step (transmitting an empty form to a buyer) and the following scanning step.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

"Comments on Statement of Reasons for Allowance."
